

Focus on the Extender Option - 2027

Last Modified on 30/09/2026 3:46 pm CAT

Introduction

The Extender Option includes cover for hospitalisation in private hospitals. There is no overall annual limit for hospitalisation. You can choose to have access to any hospital, or you can choose to save on your monthly contribution by selecting to use a specific list of private hospitals (referred to as Associated hospitals).

For chronic treatment, you can choose to have access to any doctor for your chronic scripts and any pharmacy for your chronic medication. Or you can choose to save on your monthly contribution by selecting to use a list of Associated doctors for your chronic script and Medipost courier pharmacy for your chronic medication. Alternatively, you can choose to use State facilities for your chronic script and chronic medication to obtain the maximum contribution saving.

The Health Platform Benefit provides cover for a range of benefits such as preventative screening tests, certain check-ups and more. 25% of your contribution is available in a Personal Medical Savings account (Savings) to cover day-to-day expenses. If this Savings is not enough to cover your annual day-to-day expenses, you will also have access to the Extended Cover benefit which provides further cover for day to-day benefits once your day-to-day claims have reached the Threshold (a pre-determined amount that is based on your family size). Once you have reached this Threshold amount, your claims will be paid by the Scheme from the Extended Cover benefit.

You can choose to make use of Momentum HealthSaver+ for additional day-to-day expenses and to pay for out-of-pocket expenses before your Extended Cover is activated. To help pay for in-hospital shortfalls and co-payments, you can make use of Momentum GapCover+. HealthSaver and GapCover are complementary products offered by Momentum.

This focus page summarises the 2027 benefits available on the Extender Option. Scheme Rules always take precedence and are available on request.

Momentum Medical Scheme's 2027 benefit and contribution amendments have been submitted to the Council for Medical Schemes and are subject to approval by the Registrar.

This benefit includes cover for hospitalisation and certain specialised procedures/treatment. There is no overall annual limit on hospitalisation. Specialised procedures/treatment do not necessarily require admission to hospital and are included in the Major Medical Benefit – provided the treatment is clinically appropriate and has been pre authorised. If authorisation is not obtained, a 30% co-payment will apply on all accounts related to the event and the Scheme would be responsible for 70% of the negotiated tariff, provided authorisation would have been granted according to the Rules of the Scheme. In the case of an emergency, you or someone in your family or a friend may obtain authorisation within 72 hours of admittance. If you choose Associated hospitals and you do not use this provider, a 30% co-payment will apply on the hospital account.
