Fedhealth Medical Scheme 2026

Dear Aon Client

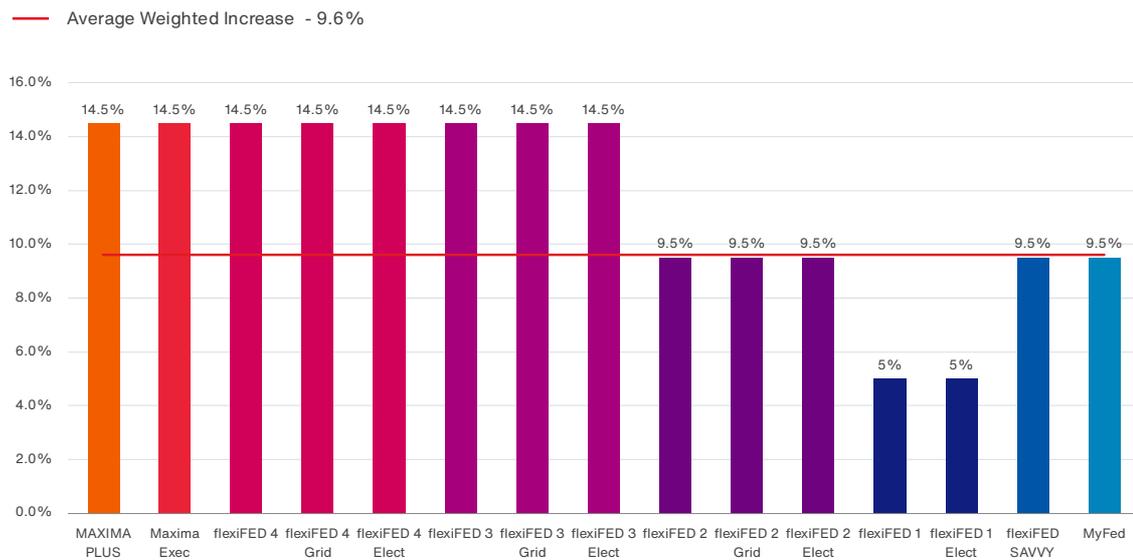

At Aon, we shape decisions for the better – to protect and enrich the lives of people around the world.

It is important that at this time of the year you evaluate your current healthcare arrangements to ensure the most appropriate cover for 2026. Whether you wish to remain on your current option or change to a more suitable option for 2026, it remains Aon’s responsibility to guide you through the review process. This will ensure that you make an informed decision regarding your healthcare cover for 2026.

The information provided in this letter is a summary of changes within the Fedhealth options. For more detailed information and clarity on your benefits and contributions please refer to the Aon Microsite. Please find link on page 5.

FlexiFED 3	R4,000
FlexiFED 4	R4,500

Maternity Benefit Enhancement

Members on flexiFED 1 will have an out-of-hospital maternity benefit to cover pre-and post-natal care. The benefit will cover the following:

- Two 2D Scans.
- 6 Ante- or post-natal consults with a network GP or Gynaecologist.
- 1 amniocentesis test.
- Funding for antenatal classes, postnatal midwife consults and Doula.

Female Health:

The female contraceptives paid from Risk will also include cover for emergency contraception on all options. The benefit will be covering emergency contraception once a year for females up to age 55 years.

Vaccinations:

There will be an enhancement to the preventative and wellness benefit for older members. An additional Pneumococcal vaccination will be covered for all members aged 65 and older. The benefit will be available on all options excluding myFED and flexiFEDSavvy.

Oncology:

On flexiFED 4, the Brachytherapy benefit will increase with 25% to R62,100 per annum.

Self-payment Gap:

The self-payment gaps on flexiFED 1, 2 and 3 have been removed. This means that once members **deplete their fixed savings**, the scheme will continue to pay for unlimited network GP consultations with a 20% co-payment as well as the relevant dental benefits.

Medical Savings Account

The Medical Savings Account (MSA) family structure will change to align with the market for Principle, Adult and Child set allocation. This change will apply on flexiFED1 to flexiFED4, excluding flexiFEDSavvy. This will impact the savings allocation for family memberships of main member and children as the savings allocation for children is much less than the current M+ allocations.

Co-payments

The rand value penalty co-payment on myFED, flexiFEDSavvy, flexiFED1 and Grid options is restructured to a 30% co-payment value.
