Last Modified on 30/09/2026 9:37 am CAT

Introduction

The Custom Option includes cover for hospitalisation in private hospitals. There is no overall annual limit for hospitalisation. You can choose to have access to any hospital, or you can choose to save on your monthly contribution by selecting to use a specific list of private hospitals, referred to as Associated hospitals. A co-payment of R2 100 per authorisation applies to Major Medical Benefits including for non-emergency Prescribed Minimum Benefits, except for motor vehicle accidents, maternity confinements, emergency treatment and when you involuntarily use a non-designated Service Provider.

For chronic treatment, you can choose to have access to any GP for your chronic scripts and any pharmacy for your chronic medication. Or you can choose to save on your monthly contribution by selecting to use a list of Associated GPs for your chronic script and Medipost courier pharmacy for your chronic medication. Alternatively, you can choose to use State facilities for your chronic script, chronic medication and treatment to obtain the maximum contribution saving.

The Health Platform Benefit provides cover for a range of day-to-day benefits such as preventative screening tests, certain check-ups and more.

If you need cover for other day-to-day expenses, like GP visits or prescribed medicine, you can choose to make use of the HealthSaver+. To help pay for in-hospital shortfalls and co-payments, you can make use of Momentum GapCover+. HealthSaver and GapCover are complementary products offered by Momentum.

This focus page summarises the 2027 benefits available on the Custom Option. Scheme Rules always take precedence and are available on request.

Momentum Medical Scheme's 2027 benefit and contribution amendments have been submitted to the Council for Medical Schemes and are subject to approval by the Registrar.
